

The International Student Program at Dromana College provides an opportunity for developing cultural exchange and awareness. Dromana College offers its international students a broad and interesting curriculum which is tailored to suit their needs and interests and is delivered by our highly committed and qualified staff. We are also proud of our extra curricula activities including sports, music and performance which further enhance the educational experience of our International students.

Dromana College has put in place various procedures and programs to assist overseas students from the time they arrive in Australia and all aspects of the program are closely monitored by our International Student Coordinator. These include regular meetings with students, host families and agents to ensure that student academic and welfare needs are being met.

International students are enrolled into mainstream classes with other members of their cohort, except for English as a Second Language classes. There is a broad elective program from which students can select subjects that they are interested in.

The role of the International Student Coordinator is to liaise with the students and the International Division of the Victorian Department of Education, the school, English Language Centre and the Victorian School of Languages. The Assistant Principal oversees the program and works closely with the Coordinator.

Dromana College offers an idyllic setting on the Southern Mornington Peninsula in which International students can enjoy a unique educational and cultural experience.
