

To access the DayMap Parent Portal:

- Go to the link at the bottom of this page and click on 'New User'?

- Type in the email address you have registered with Dromana College and your child's student code and then click 'Reset Password?' (if you have multiple children attending Dromana College you can use any of their codes as they are all linked)

- This screen should appear and an email will be sent providing you with logon details

- If this screen does not appear or you get an error message it will be for one of two reasons. Either the student code entered is wrong, or the email address provided is not registered with the college.
- Simply email your details, including your son/daughter's name and year level to 08377694@dsc.vic.edu and we will update your details and send out logon details to the email address provided.
